

John Joynson - Governor Profile

My name is John Joynson and I was appointed to the Board last year as a Foundation Governor.

I am now semi retired and live with my wife in Bamburgh in North Northumberland.

I have been involved in Governance as long as I have been in Education and have been a Chair of Governors of a MLD Special School in Northumberland for over 20 years.

I have taught in Mainstream Schools for over 30 years ending up as an Inclusion Manager responsible for the Special Educational Needs Provision across the School.

I then moved into Educational Administration working as a Special Educational Needs Officer in both Sunderland and North Tyneside L.A.

My main interests in terms of Governance is to ensure that the pupils in school receive the best possible education they can, irrespective of their Special Educational Need.

Liaison with Parents and other Stakeholders is important in any school organization and this is an important part of any Governor's Role.
